Dear Judge Welford,

I

On March 9, 2015 you ordered the government "to provide defendant with copies of subpoenas used to obtain the financial records of defendant and his parents." (Text 3/9/15)

- (1) To date these have not been disclosed
- (2) Recent government documents include new allegations that "Jenkins falsely represented his income and assets" and "income and expenses" indicating financial and income related documents may have been obtained and not disclosed
- (3) The vague indictment (doc#2) was challenged previously by the public defenders office only alleging "substantially more assets" than disclosed on the "CJA-23 form"

II

Based on Thomsons prior (mis)conduct I seek

- (1) Immediate disclosure of all subpoenas (documented exchange)
- (2) Clarification of what I am exactly accused of
- (3) Grand jury (untampered with) transcripts related to subpoenas and original requests/additional requests of (all subpoenas)
- (4) Time to review research accordingly
  - (a) I have no income records (b) income disclosure from government
- (5) Move to suppress any "income" related documents or verbal references accordingly as inappropriate.

III

I believe a Pretrial Conference is necessary to clear up issues - properly turnover subpoenas, paperwork (discovery)

Sincerely,

CC
